USB Device Control & Monitoring Framework

Security Audit Report | v2.0

HIGH RISK

Organization:	Your Organization Name
Generated:	28 July 2026 08:40:37
Classification:	CONFIDENTIAL -- Internal Use Only
Framework:	USB Device Control & Monitoring Framework v2.0

1. Executive Summary

195	9	4	3
Total Events	Authorized	Blocked	Critical Threats

USB Connect Events	**195**
Total Devices Detected	**16**
Authorized Devices	**9**
Blocked Devices	**4**
Suspicious Devices	**2**
Security Violations	**13**
File Operations Logged	**103**
Critical Threat Devices	**3**

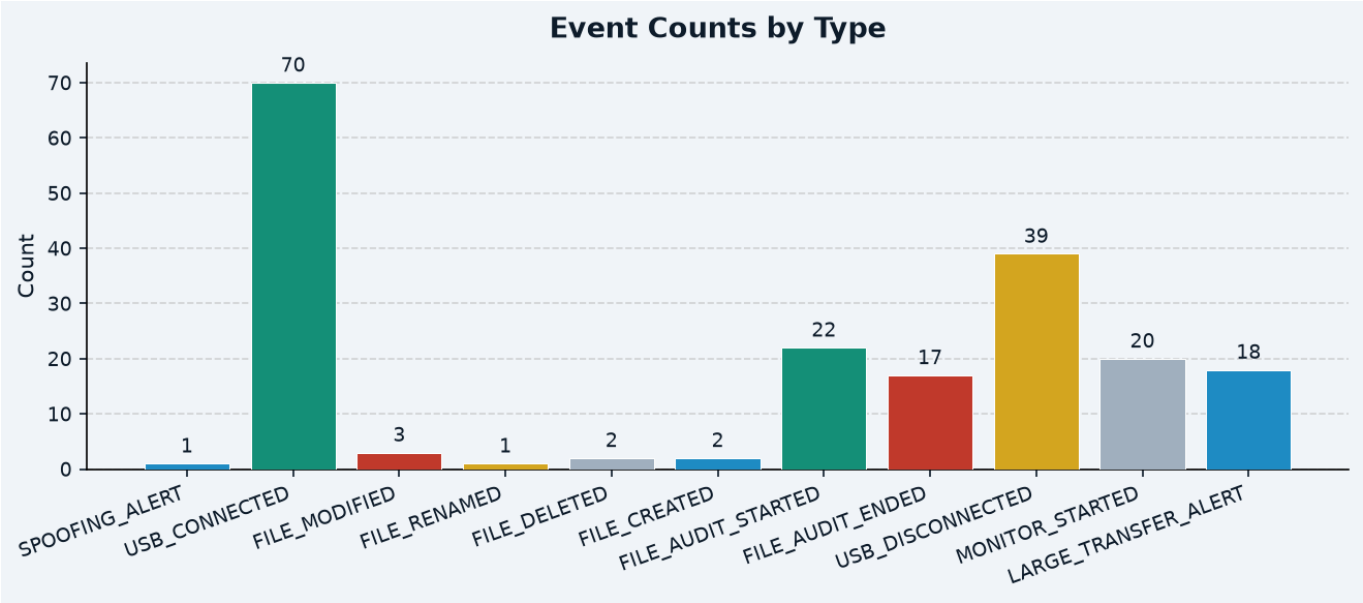

2. Risk Assessment

Overall Risk Level: HIGH RISK

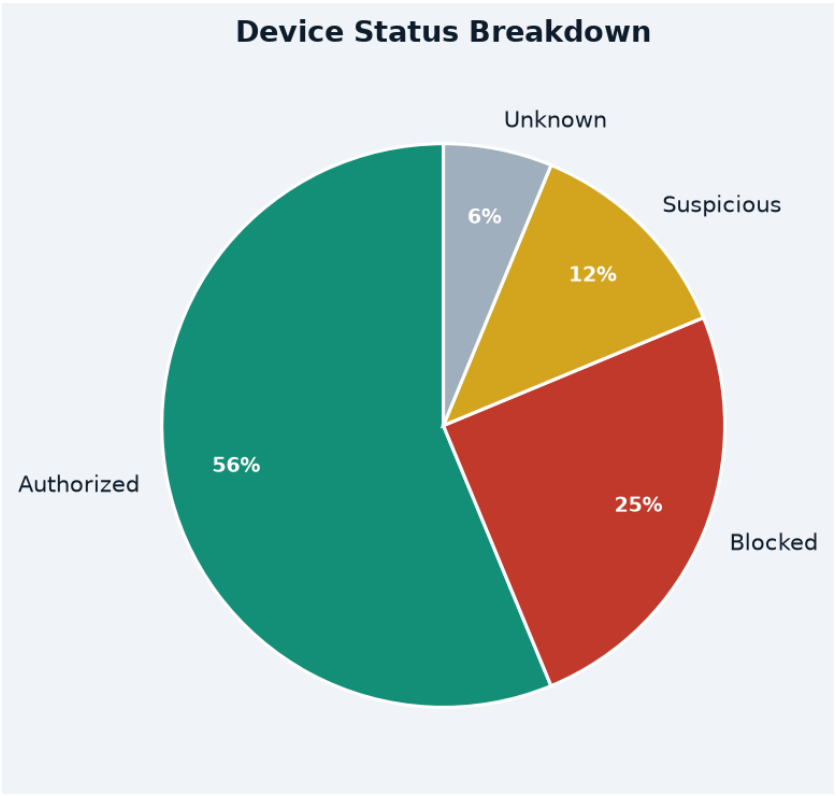

Critical: Unauthorized USB devices or critical threat scores detected. Immediate investigation and incident response required.

3. Security Analytics Charts

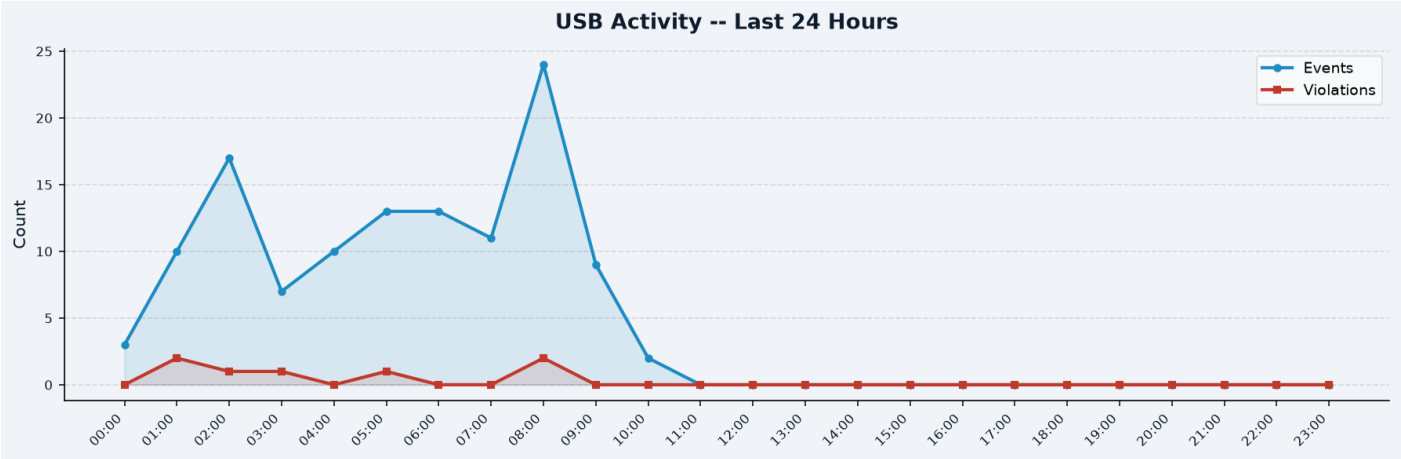

3.1 Event Types Distribution

3.2 Device Status Breakdown

4. Hourly Activity Timeline (Last 24 Hours)

5. Security Violations Log

Timestamp	Type	Device	Severity	Action
2026-07-28T08	UNAUTHORIZED_ACCESS	General UDisk USB Device	WARNING	Auto-blocked by enforc
2026-07-27T08	LARGE_TRANSFER	BadUSB HID Emulator	WARNING	Transfer alert logged
2026-07-27T05	LARGE_TRANSFER	Generic USB Mass Storage	WARNING	Transfer alert logged
2026-07-27T03	RAPID_RECONNECTIONS	BadUSB HID Emulator	WARNING	Monitoring escalated
2026-07-27T02	DEVICE_SPOOFING	BadUSB HID Emulator	CRITICAL	Device blocked ? spoof
2026-07-27T01	UNAUTHORIZED_ACCESS	Realtek USB Card Reader	BLOCKED	Disable-PnpDevice exec
2026-07-27T01	BLOCKLIST_HIT	Realtek USB Card Reader	CRITICAL	Disable-PnpDevice exec
2026-07-26T23	BLOCKLIST_HIT	BadUSB HID Emulator	CRITICAL	Disable-PnpDevice exec
2026-07-26T23	UNAUTHORIZED_ACCESS	BadUSB HID Emulator	BLOCKED	Disable-PnpDevice exec
2026-07-26T23	UNAUTHORIZED_ACCESS	Alcor Micro USB Hub (Spo	BLOCKED	Drive ejected ? no adm
2026-07-26T22	BLOCKLIST_HIT	Unidentified USB Device	CRITICAL	Disable-PnpDevice exec
2026-07-26T22	DEVICE_SPOOFING	Alcor Micro USB Hub (Spo	CRITICAL	Device blocked ? spoof
2026-07-26T11	OFF_HOURS_CONNECTION	Unidentified USB Device	WARNING	Event logged ? after h

6. Top Threat Devices

Device	VID	PID	Score	Level	Connections
Generic USB Mass Storage	1234	5678	100	CRITICAL	1
BadUSB HID Emulator	1A2B	3C4D	100	CRITICAL	1
Unidentified USB Device	ABCD	EF01	95	CRITICAL	1
General UDisk USB Device	0000	0000	75	HIGH	1
Alcor Micro USB Hub (Spoofed)	058F	6387	72	HIGH	1
Realtek USB Card Reader	0BDA	0129	55	MEDIUM	1
Unknown USB Device #14	FFFF	FFFF	40	MEDIUM	1
Verbatim Store N Go 32GB	1908	0226	22	LOW	1

7. File Transfer Activity

... and 60 more events in the database.

8. Recommendations

1. CRITICAL: 3 device(s) scored CRITICAL. These may be BadUSB or cloned hardware -- escalate to SOC.

2. URGENT: 4 blocked device(s) detected. Investigate immediately and file an incident report.

3. Enforce this framework as a Windows Service for 24/7 persistent monitoring.

4. Store audit logs centrally in a SIEM (Splunk, Elastic, Microsoft Sentinel).

5. Apply Group Policy to restrict USB storage on all non-monitored endpoints.

6. Conduct quarterly allowlist reviews -- remove stale or terminated-user devices.

7. Cross-reference file SHA-256 hashes with VirusTotal for malware detection.

8. Train employees annually on USB security risks and insider threat awareness.

9. Implement role-based USB access control via Active Directory group membership.

This report was generated automatically by the USB Device Control & Monitoring Framework v2.0. All data sourced from usb_security.db.
